## AZALEAS (Deciduous)

The varieties listed below are all very hardy and have proved themselves being able to withstand below zero temperatures. We have endeavored to propagate only the best of free blooming varieties.

	Each 100 rate	Each 1000 rate
<b>AZALEA MOLLIS—CHINESE AZALEA.</b>		
Flame shades, mixed.		
6 to 8 ins. 2 yr. trans. ....	.22	.18

8 to 10 ins. 3 yr. trans. ....	.40	.35
10 to 15 ins. 3 yr. trans. ....	.50	.45

### CHAMAECYPARIS SQUAROSA—Mossy, green foliage.

5 to 8 ins. 1 yr. trans. ....	.30	.28
8 to 12 ins. 3 yr. trans. ....	.35	—

### COTONEASTER HORIZONTALIS—Rockspray

4 to 6 ins. 2 yr. Field ....	.25	—
6 to 10 ins. 3 yr. trans. ....	.38	.35

## EUONYMUS (Evergreen Bittersweet)

An excellent broadleaved type of ornamental which is becoming rapidly popular with the ranch-style of house now being built. The varieties can be used as hedging, vines, specimen plants or as ground covers. Our list has been pared down to three varieties, all of which are useful in different treatment. These varieties are resistant to freeze-back. Excellent for shade or full sun.

### EUONYMUS ALATUS—Winged Euonymus

Procumbent, broad-leaved creeper.		
8 to 12 ins. 2 yr. trans. ....	.25	.22
12 to 18 ins. 3 yr. trans. ....	.35	.32

# Field Transplants - Well Rooted Advanced Liners

**ILEX ROTUNDIFOLIA**  
Our hardiest dwarf holly

**PYRACANTHA HIANDI**  
Firethorne. Excellent for all plantings

**ANDORRA JUNIPER**  
Purple Andorra

**BE PREPARED:** For Care of Plants Upon Arrival. Your stock, when received, should be kept cool and moist until you are ready to plant. If soil conditions are not proper, the plants should be heeled-in. Merely dig a trench wide enough and deep enough to accomodate the roots of the plants. Unpack or open the bundles, spread the roots in the trench and cover with soil. After soil is levelled in the trench tramp with weight on your heel to firmly press soil around the roots, and water well. Plants heeled-in in this manner will hold for a week or more before planting.

**NOTICE: Concerning Substitutions**—We reserve the right to change prices, without notice. We will substitute to nearest size if we are sold up on an ordered size, the substitution to the equal value as originally order or better to the customers benefit.

	Each 100 rate	Each 1000 rate
<b>EUONYMUS RADICANS VEGETUS—</b>		
Evergreen Wintercreeper. Orange Berries.		
8 to 10 ins. 2 yr. trans. ....	.35	—
10 to 15 ins. 3 yr. trans. ....	.45	—
12 to 18 ins. 4 yr. trans. ....	.50	—

## ILEX (Japanese Holly)

The ilex family now has a definite usage in the landscape planting. We now have an excellent crop of over 100,000 of the various types. The larger sizes are excellent for potting or finishing off in a few years in the field. Dug bare root and packed in moss, they handle very well in shipment.

	Each 100 rate	Each 1000 rate

8 to 12 ins. 2 yr. trans. ....	.40	.38

## PACKING FOR SHIPMENT

We exercise extreme care to pack our lining out plants in moist sphagnum moss about the roots and ex-celsior for ventilation about the plant tops. Packed in light-weight wire-bound crates the plants can be sent long distances without damage. We attempt to keep down cost of shipping charges by packing with least weight possible and at the same time assure safe arrival to the customer. Our plant are grown in open field bed ands are usually shipped the same day when dug.

### RHODODENDRON

Our rhododendron are all seed grown and handled from the flats directly to the field and grown on for two or more years. We grow them on in a good loam soil. When dug some soil is allowed to cling. You may plant them in beds (we recommend beds instead of field rows) and mulched with sawdust without shading — unless very small plants.

## GENERAL TERMS AND INFORMATION

Please read before ordering

**WHOLESALE**

**SPRING '59**

**TRADE LIST**

**Closed Sundays**

**Closed all day Saturdays in the non-shipping season**

**Open Saturdays until Noon — March, April, May.**

**PRICES SUBJECT TO CHANGE WITHOUT NOTICE**

ALL ORDERS MAY BE BOOKED WITH ONE-THIRD CASH WITH ORDER, AND BALANCE C.O.D. ALL prices are net, no discounts for cash or quantity other than the following: We do not charge for packing and boxing if payment in full accompanies order. Since we do not carry any accounts receivable department, we will not accept orders for credit.

NON-WARRANTY. We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth planting life of stock, or any other matter on stock we sell. We send out good stock, carefully grown and packed, but we cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that many prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

SHIPMENT is generally made by railway express. Small boxes shipments are sent parcel post, when expedient. We do not ship lining out stock by rail freight or by motor lines. Shipments travel at the risk and expense of the purchaser. In event of damage or delay of plants during shipment, purchaser should make claim report to carrier immediately upon receipt and forward a report to us. All complains must be made in writing within 5 days after receipt of shipment.

Orders to be accepted, must be accompanied by a 30% deposit Balance, prior to shipping time (March 1st.) or C.O.D. Pennsylvania nurserymen must file exemption certificate with us. Packing boxing extra on all C.O.D. orders.
